We are one the leading manufacturers, suppliers, importers and exporters of Car Washers and Welding Machines. Owing to their high performance and low maintenance, the welding machines find wide applications for industrial welding purposes.

About Us

We, "**Ultra Engineers**", established in the year **2000**, are prominent manufacturers, suppliers, importers and exporters of an extensive array of Car Washer and Welding Machines. The product range offered by us comprises IGBT Inverter, Welding Inverter and Welding Generator. The metal and alloy, which are best in the market, are used for manufacturing of these welding machines and car washers. **We have imported the raw materials from Korea and China**, in order to ensure optimum standards of quality. These welding machines, offered by us, can be custom made in compliance with the requirements provided. Offered by us, these welding machines are appreciated for their resistance to corrosion, robust design, high performance, minimum maintenance, user-friendly operation and longer serving life.

With the aid our large production capacity, we have been able to meet the bulk demands in the most efficient manner. **We have exported our product range to Sri Lanka and Middle East**. Being a quality conscious name, we assure that the optimum quality of the offered range of car washers and welding machines is never compromised. For this, we have appointed a team of skilled professionals. To ensure a hassle-free workplace, our employees work in close coordination with each other.

"Mr. Saravanan S.", our mentor, has helped us in catering to the precise needs of our valuable customers in the most efficient manner. He with his experience and...
